

Loyola Emergency Medical Services

2017 GEMS Course

The NAEMT **Geriatric Education for EMS (GEMS)** program trains emergency and mobile healthcare practitioners to deliver state-of-the-art care to geriatric patients. The course aims to empower practitioners with geriatric specific training to help them improve the medical outcomes and quality of life for these patients.

Ultimately this course will enhance the competence, confidence and compassion of EMS practitioners in responding to geriatric patients. GEMS offers a solid supplement to initial EMT and paramedic curriculum, helping educators reinforce the affective domain while incorporating strong cognitive and psychomotor components.

The GEMS Core Course is a one day, 8 hour face-to-face course for BLS and ALS providers.
